APPENDIX	19
▪ Definition of Key Terms	
▪ Computation of Grade Point Average GPA	
▪ Classroom Conduct.	

## PREAMBLE

1. The Regulations of each Faculty & School are supplementary to the General University Regulations set out in the University Bulletin.
2. Students are advised to be familiar with the University Statute 25 and the Code of Conduct.
3. The Students Welfare Division, should be contacted/ consulted on student matters e.g. issuance of letters on the student's behalf.

## MISCONDUCT

Statute 25 of the University's Acts and Statutes provides the procedures and penalties for dealing with any act of misconduct which may be committed by a student on any of the Campuses or during the course of activities directly supervised, organised or sponsored by the University.

Without any prejudice to the aforementioned, all forms of student misconduct will be dealt with under Statute 25.

## ACADEMIC MISCONDUCT

This includes, but is not limited to, plagiarism, collusion, complicity, cheating and fraud. Academic misconduct is taken to be deliberate when a person has had the opportunity to gain an understanding of the practice of academic integrity before the misconduct has occurred, but may be inadvertent when the person does not have an understanding of the practice of academic integrity.

**Plagiarism** is using the words, ideas, data, illustrative material, statements or work of others without due acknowledgement, deliberately or inadvertently, and proclaiming it or allowing it to be considered as one's own for academic or other purposes.

**Collusion** is a type of plagiarism that includes, but is not limited to presenting the product of unauthorised collaboration to an examiner as independent work. Collusion also occurs when a person knowingly allows his or her work to be copied and passed off as the work of another person.

**Complicity** is assisting or attempting to assist another student in an act of academic dishonesty.

**Cheating** is the use of improper means or subterfuge to gain credit or advantage. Forms of cheating include the use, attempted use, or possession of material in an unauthorised form in any examination or other academic exercise submitted for evaluation; misrepresentation of academic or extracurricular credentials; and deceitful performance on examinations. It is also cheating to submit the same work for credit in more than one course, except as authorised in advance by the lecturers. Cheating also includes, copying from another student; sitting an examination for another student; and presenting a false reference list or bibliography.

**Fraud** is a form of cheating that includes, but is not limited to the fabrication of data, and falsifying collected data from systematic enquiry and research investigations.

### SCHEDULE OF PENALTIES

No.	Offence	Penalty
1	<ul style="list-style-type: none"> <li>• Possession of material not relevant to course</li> <li>• Complicity in misconduct</li> <li>• Plagiarism (First Offence)</li> </ul>	Warning/Reprimand
2	Final year students: Possession of materials relevant to course	'F' in the course, neither Supplemental (s) nor Summer Courses allowed.
3	Continuing (non-Final Year) students: Possession of material relevant to the course	'F' in the course and one semester suspension
4	<ul style="list-style-type: none"> <li>• Multiple offender (more than one offence in the session (semester).</li> <li>• Repeat offender (was previously found guilty, had 'F' in the course but was not suspended).</li> <li>• Falsification o fabrication of data.</li> </ul>	'F' in course and one year suspension
5	<ul style="list-style-type: none"> <li>• Unauthorised possession of library material or possession of material NOT properly issued.</li> <li>• Mutilation of library books</li> </ul>	One year suspension
6	<ul style="list-style-type: none"> <li>• Repeat offender (was previously found guilty and was suspended)</li> <li>• Plagiarism (Second Offence)</li> </ul>	Expulsion

*It is recognised that the Schedule of Penalties has been formulated for offences where the perpetrators have appeared before the Disciplinary Committee. Therefore, it will not cover the gamut of possible misconduct by students. The Disciplinary Committee will therefore institute a level of penalty concomitant with the severity of new misconducts.*

Confidentiality is a vital element of all processes related to academic misconduct, as an accusation may result in disruption or failure of student studies, in that person being unable to practice their profession or with serious consequences for an individual's reputation and employment prospects. Therefore, confidentiality is essential in any matters relating to a suspicion of academic misconduct.

## PREScribed PERIOD FOR COMPLETION OF PROGRAMMES

The following periods are the prescribed periods for the completion of programmes. They are inclusive of any period of leave of absence and will result in automatic withdrawal if the programme is not completed at the end of the specified period; unless otherwise determined by the Academic Board.

<b>Programme</b>	<b>Period</b>
· Masters	Seven years, two for the completion of courses and five for the completion of the thesis
· 4 Year Bachelors	Eight years
· 2 Year Diplomas/ Associate Degree/Certificates	Six years

NB: The prescribed period for completion of programmes not mentioned above, will be provided in the programme specific regulations.

## CHANGE OF PROGRAMME

Students will be allowed to change their programme of study in the first year of enrolment, provided that they meet the entry requirement for the programme to which they are seeking a transfer; there is available space; they pay the requisite transfer fee; and adhere to the change of registration deadline. Change of Registration does not apply for entry into Law & Medicine, which are direct-entry programmes.

## COURSE CONDUCT

1. At the commencement of each course the Lecturer should give each student a course outline which details the course objectives, content, method of assessment and recommended texts<sup>1</sup>. Some lecturers may find it useful to include behavioural norms<sup>2</sup>.
2. Class lists are sent by the Division of Records & Data Management to Administrative Officers within two weeks of the commencement of class. Class lists can also be obtained from the Students Record Management System (SRMS). The class list is the official University record of bona fide students who are entitled to be in that particular class. Lecturers should disallow students whose names are not on the list from attending their classes. These students should be directed to the Admissions Division, Registry.
3. Lecturers are expected to provide timely and continuous feedback to students about their coursework grades and performance in class.
4. If a student is absent from an assessment(s) which contribute to more than 50% of the Course Grade without communicating the reason(s) to the Assistant Dean of the Faculty, before the date of the Faculty Board's meeting as a Board of Examiners, the student will be deemed withdrawn from the course. Students who are absent from more than 25% of classes including Off-Campus Training may not be permitted to write the final examinations<sup>3</sup>.

1) *It is also helpful to have office hours, and the exact or proposed dates for tests and assignments.*

2) *See Code of Conduct for Students*

## COURSE ASSIGNMENTS

In continuously assessed courses, students should submit two copies of each completed assignment. One marked copy is returned to the student while the other<sup>4</sup> is kept for the Departmental record in the event of appeals etc.

---

<sup>4)</sup> *The Department may determine the form of this copy i.e. soft or hard.*

## COURSEWORK

Students must use only their examination numbers to identify their examination scripts.

1. Coursework Marks: This usually comprises 40% or 50% of the total marks for a course except in cases of continuous assessment. Lecturers are required to submit coursework marks to the Examinations Division before the final examination is written.
2. Review of Coursework Marks: In continuously assessed courses, students may initiate the review of their coursework marks. Applications for review of coursework marks shall be made in writing by the student to the Assistant Registrar (Examinations) not later than one week after the date on which the marks for the particular segment of the coursework were released. These applications should state the reasons for the request and the name of a nominee<sup>5</sup> from among the academic community (Optional).
3. Make-up Tests:  
Students, who were absent from a test, may be granted a make-up test, provided that:
  - The test is approved and scheduled by the relevant department;
  - An approved fee is paid in advance to the Bursary; the current fee is G\$1500.
  - The test is administered in the said semester with the original test;
  - The test is preferably held before any subsequent test in the said course; and
  - The lecturer, who is required to set, administer and mark the test, is paid a predetermined amount for the setting of the test, regardless of the number of students who write the test.

---

<sup>5)</sup> *The nominee is the student's representative to ensure the review process is conducted fairly.*

<sup>6)</sup> *Laboratory fees are normally required for these courses*

## EXAMINATIONS

Only students in possession of their student identification cards and examination passes should be allowed to write an examination.

1. **Laboratory Examinations**

It is recommended that a laboratory examination be held for each course that is lab based<sup>6</sup>.

2. **Simultaneous Examinations**

Where courses are taught at both campuses there will be one final examination done simultaneously.

3. **Time-tabling of Examination**

Timetabling of final examinations is a Registry function. The Assistant Registrar (Examinations), together with the Assistant Deans, fix the date, place and time of all final examinations. Examinations should only be postponed with the permission of the Vice-Chancellor. However, the Vice-Chancellor has devolved this function to the Registrar. Thus, the Registrar's approval is needed to effect any change from that which was fixed.

---

6) *Laboratory fees are normally required for these courses*

4. **Invigilation**

Each lecturer is the Chief Invigilator for his/her course(s) and should open the examination package and also be present for the duration of the examination. If the lecturer is absent another lecturer shall perform the duty of Chief Invigilator.

5. **Supplemental Examinations**

Scripts are marked out of 100% since there is no course work component for such examinations. The highest allowable grade is "C". However, **supplemental as first sitting**<sup>7</sup> are marked as per a regular course.

- Only final year students are allowed to write supplemental examinations. There are exceptions in the Law, Optometry and Medicine programmes, or any other programme that is specifically identified in the respective Faculty Regulations.
- No student is allowed to write more than two supplemental examinations per year, except where specifically allowed by the Faculty regulations.
- The fees for make-up examinations DO NOT apply to supplemental examinations

---

7) *This is when a student, who had missed a regular semester examination because of illness etc., is allowed to write a supplemental examination that is treated as if it is this student's regular semester examination. The usual grades can be achieved. Other students may write this same examination as a supplemental i.e. a 'C' grade is the highest attainable grade.*

## 6. Grading Scheme

Grading scheme may vary according to Faculty, Department or Programme. However, the final course grades are:

- A - Distinction
- B - Good
- C - Satisfactory
- D - Minimal Pass
- F – Fail

## 7. “Prescribed Time” in relation to Pass with Distinction

For a student to be awarded a distinction, he/she must meet the academic requirements as specified in the Regulations, in addition to which he/she must have completed the programme in no more than 1½ times of the period over which the programme profile is designed for delivery, inclusive of any leave of absence that would have been granted. For example, a programme, whose profile is designed to be delivered over four (4) years, will be subjected to a 'prescribed time' of six years, even if leave of absence is granted during that period.

*Some Faculties, Departments or Programmes may require students to pass both course work and final examination to pass a course (see the respective Faculty Regulations).*

*Courses for which exemptions have been granted will be indicated by 'Ex' in place of a letter grade.*

## 8. Illness

Students must submit to the Assistant Dean a medical certificate from a medical practitioner approved by the University for all examinations/laboratories field trips etc. missed during a course. No student shall submit more than two (2) medical certificates to be excused from tests or examinations per semester.

## 9. Incomplete Grade

This will be applied in accordance with the General University Regulations governing “I” grade. The student must have completed a major portion of the course with a pass grade and, because of extenuating circumstances, has been unable to complete the course work of the examinable course; or the continuously assessed course, before the end of the semester.

Please note that an “I” grade is a contract agreed upon, between the Department and the student, allowing the student to complete the course requirements no later than the end of the semester following that in which the “I” grade was given. The prescribed form should be uplifted from the Administrative Officer, completed and signed, and sent to the Assistant Registrar, Examinations. The 'I' grade indicates postponement of the award of a final grade. If the requirements are not completed, within the specified time, the final grade will be the grade that would have been attained before the application for the 'I' grade, provided that in instances where the course is an examinable course, the 'I' grade must be applied for prior to the final examination.

10. **Re-sits**

Re-sits are a complementary provision to the 'I' Grade rule. Students who are unable to write a final examination because of extenuating circumstances may be allowed to write a re-sit, provided that the re-sit is administered before the end of the academic year, in which the student becomes eligible to do so; and that no student is allowed to do more than two (2) re-sits in any academic year. The symbol 'RS' is used to indicate that a Re-sit examination is to be done.

To facilitate re-sits the examiner should set and submit two different questions papers when submitting the final examination paper and that the Department would decide which would be the original and which would be for the re-sit.

11. **Grade Point Average (GPA):**

- $GPA = (\text{Product of Credits and Grade Point}) / \text{Sum of Credits}$ .
- Number equivalent of letter grade: A = 4, B = 3, C = 2, D = 1.
- Grade F is not counted i.e. the divisor shall be the total credits for the number of passed courses.
- Exemptions are not counted in the computation.
- Calculation is to one decimal place. However, decimals are **NOT** rounded off.
- The first passing grade is used in the computation of GPA, except where an upgrade is done to meet the minimum GPA requirement to graduate.

**The categories of passes with their required GPA are:**

- **Pass with Distinction:** 3.4 to 4.0 with no more than one (1) fail grade
  - **Pass with Credit:** 2.7 to <3.4 with no more than (2) fail grades
  - **Pass:** 2.0 to <2.7
- (see Appendix 2 for computation of the GPA).

For the classification of passes and computation of GPA the Faculty of Natural Sciences<sup>9</sup> has major courses and other courses

12. **Publication of Results**

Examination results in each course will be published on-line as soon as they have been approved by the Faculty Board meeting as a Preliminary Board of Examiners. However, a lecturer may indicate to a student whether he/she has passed or failed.

---

9) Distinction is attained by: a GPA of not less than 3.4 in designated/prescribed courses and also a GPA of not less than 2.5 in the other courses.

Or

a GPA of not less than 3.4 in designated/prescribed courses and also a GPA of not less than 3.0 in all of the

**13. Review of Examination Marks**

Students may initiate the review of their examination marks. Applications for review of final examination shall be made in writing by the student to the Assistant Registrar (Examinations) not later than two weeks after the date of publication of examination results.

**STUDENT ASSESSMENT of STAFF**

In each semester students will be required to assess the teaching of each course. The online assessment is accessed via the URL <http://uog.edu.gy/esa2/login>. Only fully registered (fully paid) students are allowed access. Students must input their registration number to access the form for each course. Please note that anonymity is assured once the evaluation is submitted.

**SUMMER COURSES**

For the time being, the University does not guarantee that summer courses will be offered; therefore students are advised to plan their programme as if no summer course will be offered. Students are allowed to take a maximum of eight (8) credits of summer courses per year. Summer courses should have between 10 to 40 students<sup>10</sup>; deviations must be approved by the Vice-Chancellor.

---

*10) Departments are not compelled to offer a summer course even if the required numbers of students have indicated an interest in doing the course.*

**INSURANCE**

All registered students of the University of Guyana have insurance coverage both on and off campus once they are engaged in authorised University activities. This coverage does not extend to overseas authorised activities.

**CONTACT & OFFICE HOURS**

1. Each lecture or tutorial hour = 1 credit hour.
2. In the Faculties of Agriculture & Forestry, Natural & Health Sciences 2-3 hours of practicals/ laboratories + 1 tutorial per week = 1 credit hour, 4-6 hours of practicals/ laboratories + 1 tutorial per week = 2 credit hours and 7-9 hours of practicals/ laboratories + 1 tutorial per week = 3 credit hours.
3. In the Faculty of Technology each laboratory hour = ½ credit.
4. A course should not be conducted with less than 10 registered students, unless approved by the Vice-Chancellor.
5. Laboratory session should have  $\leq 20$  students<sup>11</sup>.
6. Tutorial session should have  $\leq 30$  students<sup>12</sup>.
7. Classes usually commence at quarter past the hour, and end at ten minutes past the hour. This allows the students to be on time for their next class.

8. Where students have received no communication from the lecturer, and 25% of the session time has elapsed, they reserve the right to request make-up classes.
9. Lecturers must post specified office hours<sup>13</sup> when they are available for consultation with students.

---

11) This maximum can be exceeded where the total class size is close to a multiple of 20. For e.g. if the class size = 63 then there should be 3 groups of 21, rather than 4 groups

12) Similar conditions as for laboratory groups apply.

13) Lecturers must post their office hours in the Faculty of Technology building.

**APPENDIX1****DEFINITION OF KEY TESTING TERMS**

To ensure that students provide sufficient information that lecturers require, some key words and their meanings are provided. Lecturers should strive to ensure that their questions are concise and unambiguous at all times.

Account for	Give reasons for. Make clear, explain.
Analyse	Give a detailed description by separating into different parts.
Assess	Give the value, showing how important or successful.
Calculate	Find the value of, show each step in the calculation.
Clarify	Make simple, make clear.
Comment on	Make opinions about, give your point of view.
Compare	Find and explain the similarities between/among...

**DEFINITION OF KEY TESTING TERMS (cont'd)**

Consider	Take into account. What are your thoughts about
Contrast	Find and explain the differences between/among...
Criticise	Give evidence to support your opinion on.
Define	Give the exact meaning of.
Demonstrate	Show how using examples.
Describe	Give a detailed account of.
Discuss	Give the important aspects of, the pros and cons of. A synthesis of knowledge (of ideas) is expected.
Distinguish between/Differentiate	Give the differences between.
Evaluate	Discuss the importance or success of. Include something of your own opinion.

**DEFINITION OF KEY TESTING TERMS (cont'd)**

Examine/Explore	Enquire into, investigate.
Explain	Make clear giving reasons.
Explain the recommendations.....	State the existing situation and its drawback, then outline the recommendations and their advantages
How	In what way.
Illustrate	Give examples to make your points clear or use a drawing, diagram or figure to explain.
Interpret	Show the connections between things.
Justify	Give evidence for a particular point of view.
List	Make a list (sometimes in a certain order).
Outline	Describe without detail. Give the main features.

**DEFINITION OF KEY TESTING TERMS (cont'd)**

Relate	Tell a story or show how things are connected or affect each other.
Review	Give a critical survey of.
State	Present clearly but briefly.
Summarise	Bring together the main points without detail or examples.
Trace	Show how a topic has developed from beginning to end.
Translate	Give in a different form of language.

## APPENDIX 2

## COMPUTATION OF GRADE POINT AVERAGE (GPA)

Student X has the following profile:

Course	Credits	Grade	Points
FOR111	3	D	3
CHM 124	4	D	4
SRV 121	3	C	6
ENG 115	4	C	8
FOR 121	3	A	12
AGR 121	4	C	8
FOR 224	3	B	9
MTH 111	4	D	4
FOR 223	3	C	6
FOR 222	3	B	9
GEO 213	4	D	4
FOR 221	3	C	6
Total	41		79
GPA=	79/41	= 1.9 (upgrade required)!!	

## APPENDIX 3

## CLASSROOM CONDUCT

The lecturer is expected to take control of the conduct of students in the lecture room, and to create an environment that is comfortable and conducive to learning. Disruptive behaviour on the part of students may be distracting, annoying, or intimidating to other students and should not be tolerated.

The lecturer has the prerogative of deciding the classroom conduct and the appropriate mode of dress of the students as long as these actions do not infringe upon the students' rights. In addition, students should adhere to behavioural norms as stated in the "Code of Conduct for Students". Behavioral standards that are thoughtfully communicated at the start of the semester, and reinforced when needed, may exert a positive influence on classroom conduct.

Other behaviors that may be addressed in the course outline are:-

- Intimidation, noisy or harassing behavior
- Inappropriate, disrespectful, or uncivil responses to the comments or opinions of others in the classroom or transmitted electronically
- Biased based behaviours (comments or harassment)
- Threats/challenges to do physical harm (even if stated jokingly)
- Use of obscene or profane language in the classroom or transmitted electronically.
- Excessive talking and disparaging remarks
- Late arrival to, or early departure from, lectures without permission
- Use of personal electronic devices such as pagers and cell phones while lectures are in progress
- Refusal to comply with legitimate instructions given by staff members.

***For more information please contact:***
